UX Designer

Design system champion with a heart for accessibility and clean logic.

Asra Khan
Product Manager

Passionate builder keeping roadmap execution balanced and delightful. Works closely with engineering to resolve visual performance bugs and ensure micro-interactions remain buttery smooth.

Jonathan Fazzari
Developer

Enjoys deep diving into micro-services and pixel perfect CSS configurations.

Finn Gurry
Developer

Loves TypeScript, reactive patterns, and optimizing overall bundle sizes. Constantly refactoring modular components to prevent runtime regressions, establishing rigorous testing workflows, and mentoring junior developers on clean architectural patterns.
